

the 1990s, the number of people in the United States who are 65 years of age or older has increased by 50% (U.S. Census Bureau, 1997). The number of people aged 65 and older is projected to increase to 20% of the total population by the year 2020 (U.S. Census Bureau, 1997). The increase in the number of people aged 65 and older has led to an increase in the number of people who are dependent on others for their care. This has led to a need for more long-term care facilities and services. The number of people in long-term care facilities has increased by 50% since 1980 (U.S. Census Bureau, 1997). The number of people in long-term care facilities is projected to increase to 20% of the total population by the year 2020 (U.S. Census Bureau, 1997). The increase in the number of people in long-term care facilities has led to a need for more long-term care facilities and services. The number of people in long-term care facilities is projected to increase to 20% of the total population by the year 2020 (U.S. Census Bureau, 1997).
